Multi-Line Insurance Policy and Claims Management System

Customer Problem Statement Template

PS	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Insurance Operations Manager	standardize policy quoting and issuance	the process is manual, slow, and inconsistent	legacy systems and processes are fragmented	frustrated and concerned
PS-2	Insurance Agent	create and manage policies efficiently	different insurance lines require different information	Vehicle, Property, and Life policies have diverse data requirements	overwhelmed
PS-3	Insurance Agent	provide accurate policy quotes	quoting requires multiple steps and manual processing	there is no unified quoting platform	frustrated and uncertain
PS-4	Claims Manager	manage claims efficiently	claim review and routing are largely manual	claims processes are not centralized or automated	stressed
PS-5	Claims Adjuster	manage assigned claims effectively	I lack a focused view of my claims workload	claim information is not easily available in one place	frustrated and less productive
PS-6	Claims Manager	route claims to the appropriate team	claims need to be handled according to policy type and claim severity	routing processes are complex and require automation	concerned about delays
PS-7	Senior Adjuster	process high-value claims efficiently	approval requires multiple levels of review	high-value claims require structured approval and escalation	pressured
PS-8	Insurance Operations Manager	maintain accurate policy information	different products require different fields and validations	Vehicle, Property, and Life policies have varying data requirements	concerned about data quality
PS-9	Customer	get my policy and claim handled quickly	manual processing causes delays	policy and claims processes are fragmented	uncertain and dissatisfied
PS-10	Insurance Management	get a complete view of customer, policy, and claim information	information is spread across processes and systems	there is no unified platform	concerned about operational efficiency
